EXTRACT OF MINUTES OF COUNCIL MEETING HELD IN NOMPUMELELO VILLAGE COMMUNITY HALL ON 28 MAY 2013:

1.1 Report on Medium Term Revenue and Expenditure Framework for the Financial Periods 2013/2014

Council Meeting

28 May 2013

28/05/2013:281

Ref: 3/2/2/3

Resolved

1. That Council approves the Annual Budget of the Koukamma Municipality for the financial year 2013/14 and the multi-year and single-year capital appropriations as set out in the following tables:
 - 1.1 Budgeted Financial Performance (revenue and expenditure by standard classification);
 - 1.2 Budgeted Financial Performance(revenue and expenditure by vote);
 - 1.3 Budgeted Financial Performance (revenue by source and expenditure by type);and
 - 1.4 Multi-Year and single- year capital appropriations by municipal vote and standard classification and associated funding by source.
 - 1.5 The financial position, cash flow budget, cash-backed reserve/accumulated surplus, asset management and basic service delivery targets are approved as set out in the following tables

- 1.5.1 Budgeted Financial Position
 - 1.5.2 Budgeted Cash Flows;
 - 1.5.3 Cash backed reserves and accumulated surplus reconciliation;
 - 1.5.4 Asset Management; and
 - 1.5.5 Basic service delivery measurement:
-
2. That Council of Koukamma Local Municipality, acting in terms of Section 75A of the Local Government: Municipal Systems Act, (Act 32 of 2000) approves:
 - 2.1. The tariffs-as set out in Annexure A;
 - 2.2. The tariffs for electricity- as set out in Annexure A
 - 2.3. The tariffs for Sanitation and refuse- as set out in Annexure A
 3. That Council, acting in terms of Section 75A of the Local Government: Municipal Systems Act (Act 32 of 2000) as amended approves the tariffs for other services, as set out in Annexure A.
 4. That Council, adopts the 2013/14 IDP
 5. That Council approves the related policies(inclusive of Property Rates Charges and Taxes, Tariffs amendment to the budget related Policies and Service Charges in terms of Section 24 (2) of the Municipal Finance Management Act, 2003(Act No:56 of 2003).

S. NKULU
Municipal Manager

31/05/2013

2.14 Municipal Manager's quality certificate

I, Sabelo Nkuhlu, Municipal Manager of Koukamma Local Municipality, hereby certify that the Annual Budget and supporting documentation have been prepared in accordance with the Municipal Finance Management Act and the Municipal Budget and Reporting Regulations, and that the Annual Budget and supporting documents are consistent with the Integrated Development Plan of the Municipality.

Part 1- Annual Budget

1.1 Mayor's Report

The Minister of Finance had stated in his budget speech in February 2013 that although the world economy remained troubled, there were signs of improvement in that economy and in line with this improvement, that South Africa's economy had continued to grow, albeit at a slower pace than what was expected in the previous year. It was also stated that although South Africa's economic outlook was improving, we "require to actively pursue a different trajectory if we are to address the challenges ahead". This would mean that all sectors of society would have to work together to achieve this.

Management within local government has a significant role to play in strengthening the link between the citizen and government's overall priorities and spending plans. The goal should be to enhance service delivery aimed at improving the quality of life for all people within the Koukamma Municipality. Budgeting is primarily about the choices that the municipality has to make between competing priorities and fiscal realities. The challenge is to do more with available resources. We need to remain focused on the effective delivery of the core municipal services through the application of efficient and effective service delivery mechanisms.

The application of sound financial management principles for the compilation of the Municipality's financial plan is essential and critical to ensure that the Municipality remains financially viable and that sustainable municipal services are provided economically and equitably to all communities.

The 2013/14 Medium Term Revenue and Expenditure Framework and its related policies has been compiled in compliance with the Municipal Finance Management Act No. 56 of 2003 and the Municipal Budget and Reporting Regulations which are aimed at improving credibility, sustainability, transparency, accuracy and reliability of municipal budgets.

The objective of the budget formats reform is to:

1. Ensure that the municipal budget and financial reporting formats support the other financial management reforms introduced by the MFMA;
2. Improve the local governments spheres' ability to deliver basic services to all-
 - Addressing issues of financial sustainability, and
 - Facilitating informed policy choices and medium term planning of service delivery by requiring targets to be aligned to achieve backlog elimination.

The 2013/14 MTREF has been prepared using realistically anticipated estimates and are guided by guidelines as per the National Treasury Budget Circulars. The main aim of the budget is **SERVICE DELIVERY**. It is also aimed at ensuring that services are effectively and efficiently rendered in the most economical way.

A brief overview of the budget 2013/2014 is as follows:

Total operating income- R 86 125 000
Capital Transfers- R 21 864 000
Total operating expenditure - R 90 066 000
Capital Budget- R 21 887 000

The capital budget would be financed from capital grants received from the Municipal Infrastructure Grant and a small portion from Council funding.

The operating budget is extremely constrained and focuses on service delivery. The reason for this is the limiting income realistically anticipated.

Let us work together to build a better community of Koukamma thus achieving a better life for all.

**HIS WORSHIP THE MAYOR
COUNCILLOR N.S VUSO**

1.2 Council Resolutions

On the 27th of March 2013 the Council of Koukamma Local Municipality met in Uitkyk Community Hall to consider the approval of the Draft annual budget of the municipality for the financial year 2013/14. It was resolved that Council approves and adopts the following resolutions:

1. The Council of Koukamma Local Municipality, acting in terms of Section 24 of the Municipal Finance Management Act (Act 56 of 2003) approved:
 - 1.1. The Draft Annual Budget of the municipality for the financial year 2013/14 and the multi-year and single-year capital appropriations as set out in the following tables:
 - 1.1.1. Budgeted Financial Performance (revenue and expenditure by standard classification);
 - 1.1.2. Budgeted Financial Performance (revenue and expenditure by municipal vote)
 - 1.1.3. Budgeted Financial Performance (revenue by source and expenditure by type); and
 - 1.1.4. Multi-year and single-year and single year capital appropriations by municipal vote and standard classification and associated funding by source.
 - 1.2. The financial position, cash flow budget, cash-backed reserve/accumulated surplus, asset management and basic service delivery targets are approved as set out in the following table:
 - 1.2.1. Budgeted Financial Position;
 - 1.2.2. Budgeted Cash Flows
 - 1.2.3. Cash backed reserves and accumulated surplus reconciliation;
 - 1.2.4. Asset management; and

1.2.5. Basic service delivery measurement.

2. The Council of Koukamma Local Municipality, acting in terms of Section 75A of the Local Government: Municipal Systems Act, (Act 32 of 2000) approved:

- 2.1. The draft tariffs- as set out in Annexure A,
- 2.2. The draft tariffs for electricity- as set out in Annexure A
- 2.3. The draft tariffs for Sanitation-as set out in Annexure A
- 2.4. The draft tariffs for refuse- as set out in Annexure A

3. The Council of Koukamma, acting in terms of Section 75A of Local Government: Municipal Systems Act (Act 32 of 2000) approved the draft tariffs for other services, as set out in Annexure A.

4. To give effect to the municipality's annual budget, the Council of the Council of Koukamma Local Municipality should approve that:

4.1 The cash backing is implemented through the utilisation of a portion of the revenue generated from property rates to ensure that all capital reserves and provisions, unspent conditional grants are cash backed as required in terms of Regulation 8 of the Municipal Budget and Reporting Regulations, 2009(MBRR).

1.3 Executive Summary

The application of sound financial management principles for the compilation of the Municipality's financial plan is essential and critical to ensure that the Municipality remains financially viable and that municipal services are provided sustainably, economically and equitably to all communities.

Section 21 of the Municipal Finance Management Act deals with Municipal Budgets and describes the entire budgeting process. The Mayor is tasked with the co-ordinating the processes for preparing the budget, reviewing the Integrated Development Plan (IDP) and budget related policies. The Accounting Officer, as per Section 68 of the MFMA, is required to assist the Mayor in developing and implementing the budgetary process.

When drafting this budget, consideration was given to Section 18 of the MFMA which states that:

"An annual budget may only be funded from-

- a) Realistically anticipated revenues to be collected;
 - b) Cash-backed accumulated funds from previous years' surpluses not committed for other purposes; and
 - c) Borrowed funds, but only for the capital budget referred to in in Section 17(2)
- (2) Revenue projections in the budget must be realistic, taking into account-
- a) Projected revenue for the current year based on collection levels to date; and
 - B) Actual revenue collected in previous financial years."

Great emphasis was placed in ensuring that the budget is realistically funded. A complete analysis of the various financial scenarios and outcomes was done and the best viable solution sought.

In addition to the budget, an amendment to the Municipal Systems Act (MSA) and Chapter 4 of the MFMA require that the Integrated Development Plan (IDP) be adopted at the same time of adopting the budget. The IDP informs the budget and their simultaneous adoption will ensure that the budget is properly aligned to the IDP and ensure that planned projects are credible and that the budgets are realistic and implementable. The budget was drafted in conjunction with the IDP.

The annual budget was prepared in accordance to the National Treasury's content and format as contained in Circular 66. The two concepts considered were:

- 1) That the budget must be funded according to Section 18 of the MFMA(as mentioned above), and
- 2) That the budget must be credible.

A credible budget is described as one that:

- Funds only activities consistent with the draft IDP and vice versa ensuring the IDP is realistically achievable given the financial constraints of the municipality.
- Is achievable in terms of agreed service delivery and performance targets.
- Contains revenue and expenditure projections that are consistent with current and past performance and supported by documented evidence of future assumptions.
- Does not jeopardize the financial viability of the municipality(ensures that the financial position is maintained within generally accepted prudential limits and that obligations can be met in the short, medium and long term); and
- Provides managers with appropriate levels of delegation sufficient to meet their financial management responsibilities.

As mentioned above, the budget was compiled taking into consideration the guidelines outlined in MFMA Budget Circular No 58 for 2013/14 financial year.

The Municipality's business and service delivery priorities were reviewed as part of this year's planning and budget process. Where appropriate, funds ere transferred from low-to high- priority programmes so as to maintain sound financial stewardship. A critical review was also undertaken of expenditures on noncore and 'nice to have items'.

The Municipality has embarked on implementing a range of revenue collection strategies to optimize the collection of debt owed by consumers. Furthermore, the Municipality has undertaken various customer care initiatives to ensure the municipality truly involves all citizens in the process of ensuring a people lead government.

The main challenges experienced during the compilation of the 2013/14 MTREF can be summarised as follows:

- The ongoing difficulties in the national and local economy
- Aging and poorly maintained roads and electricity and water infrastructure.
- The need to reprioritise projects and expenditure within the existing resource envelope given the cash flow realities and declining cash position of the municipality'
- The increased cost of bulk electricity (due to tariff increases from Eskom), which is placing upward pressure on service tariffs to residents,
- Wage increases for municipal staff that continue to exceed consumer inflation, as well as the need to fill critical vacancies;
- Availability of affordable capital/borrowing.

The following budget principles and guidelines directly informed the compilation of the 2013/14 MTREF:

- The 2012/13 Adjustments Budget priorities and targets, as well as the base line allocations contained in that Adjustments Budget adopted as upper limits for new baselines for the 2013/14 and annual budget;
- Intermediate service level standards were used to inform the measurable objectives, targets and backlog eradication goals;
- Tariff and property rate increases should be affordable and should generally not exceed inflation as measured by the CPI, except where there are price increases in the inputs of services that are beyond the control of the municipality, for instance the cost of bulk electricity. In addition, tariffs need to remain or move towards being cost reflective, and should take into account the need to address infrastructure backlogs.
- There will be no budget allocated to National and Provincial funded projects unless the necessary grants to the municipality are reflected in the National and Provincial budget and have been gazetted as required by the annual Division of Revenue Act (Dora) or MTPS.

In view of the aforementioned, the following table is a consolidated overview of the proposed 2013/14 Medium Term Revenue and Expenditure Framework:

Table 1 Consolidated Overview of the 2013/14 MTREF

R Thousand	Adjustment Budget 2012/2013	Budget Year 2013/2014	Budget Year +1 2014/2015	Budget Year + 2015/2016
Total Operating Revenue	166,092,245.00	86 124 681.00	88,894,822.00	95,839,971.00
Total Operating Expenditure	(166,787,098.)	(90,066,223.)	(93,025,215.)	(100,318,871.)
Surplus/Deficit	694,853.00	- 3,941,542.00	4,130,393.00	4,478,900.00
Total Capital Transfers - MIG	17,763,000.00	21,864,000.00	14,772,000.00	15,379,000.00
Capital Expenditure	(20,807,827.)	(21,886,518.)	(14,843,511)	(15,354,119.)
Surplus/Deficit for the year	R -3,739,680.00	R -3,964,060.00	R -4,201,904.00	R -4,454,019

Total operating revenue has decreased by 48 per cent or R79 967 564 million for the 2013/14 financial year compared to the 2011/12 Adjustments Budget. This is mainly due to the housing rectification grant not being budgeted for in the annual budget 2013/2014. For the two outer years, operational revenue for rates and services will increase by 6 % and 6 % respectively.

Total operating expenditure for the 2013/14 financial year has been appropriated at R 90 066 223. When compared to the 2012/13 Adjustments Budget, operational expenditure has decreased by 45 per cent in the 2013/14 budget and will increase by 6% and 6 % for each of the respective outer years of the MTREF.

1.4 Operating Revenue Framework

For Koukamma to continue improving the quality of services provided to its citizens it needs to generate the required revenue. In these tough economic times strong revenue management is fundamental to the financial sustainability of every municipality. The reality is that we are faced with development backlogs and poverty. The expenditure required to address these challenges will inevitably always exceed available funding; hence difficult choices have to be made in relation to tariff increases and balancing expenditures against realistically anticipated revenues.

The municipality's revenue is built around the following key components:

- National Treasury's guidelines and macroeconomic policy;
- Growth in the Municipality and continued economic development;
- Efficient revenue management, which aims to ensure a 90 per cent annual collection rate for property rates and other key service charges and a 98 per cent collection rate for electricity revenue.
- Electricity tariff increases as approved by the National Electricity Regulator of South Africa (NERSA);
- Achievement of full cost recovery of specific user charges especially in relation to trading services;
- Determining the tariff escalation rate by establishing/ calculating the revenue requirement of each service;
- The municipality's Property Rates Act, 2004 (Act No. 6 of 2004) (MPRA)
- Increase ability to extend new services and recover costs.
- The municipality's Indigent Policy and rendering of free basic services; and
- Tariff Policies of the Municipality.

The following table is a summary of the 2013/14 MTREF (classified by main revenue source):

Table 2 Summary of revenue classified by main revenue source

Description	2009/10	2010/11	2011/12	Current Year 2012/13			2013/14 Medium Term Revenue and Expenditure Framework

Interest earned - external investment	2 888		705	-309%	747	6%	792	6%
Interest earned outstanding debtors	0		500	100%	530	6%	561	6%
Agency Fees	2 193		4000	45%	4 240	6%	4 494	6%
Fines	380		4000	90%	4 240	6%	4 494	6%
Licences and permits	0		160	100%	170	6%	180	6%
Transfers recognised – operational	119233		36 789	-224%	37659	2.3%	41530	9.32%
Other revenue	5 665		4 558	-24%	3 772	-20%	3 998	6%
Total revenue (excluding capital transfers)	163730		86 125		88 893		95 840	

In line with the formats prescribed by the Municipal Budget and Reporting Regulations (MBRR), capital transfers and contributions are excluded from the operating statement, as inclusion of these revenue sources would distort the calculation of operating surplus/deficit.

Revenue generated from rates and services charges forms a significant percentage of the revenue basket of the Municipality. Rates and service charge revenues comprise more than two thirds of the total revenue mix. In the 2012/13 financial year, revenue from rates and services charges is estimated to total R33 269 million. This increases to R35 303 million in the 2013/14 year, R37 420 million 2014/15 and R39 665 million 2015/16 million in the respective financial years of the MTREF.

Electricity revenue comprises 2.3% of total operating income. It is proposed that the tariffs for electricity increase by 8 % year on year in order to achieve a gross percentage that is in line with the NERSA guideline of 30% over a four year period.

Property rates are the largest revenue source totalling 16.71 per cent or R14 396 million rand of total operating revenue and increases to R 15 529 million by 2015/16. Income from operating grants that have been gazetted as per the Division of Revenue Act. These operating grants will equal R36 789 million for 2013/14. The other item contributing to revenue is 'other income' which consists of various items such as income received from permits and licences, building plan fees, connection fees, rental of facilities and other sundry income. Departments have been urged to review the tariffs of these items on an annual basis to ensure they are cost reflective and market related.

Operating grants and transfers total R37 659 million in the 2014/15 financial year and steadily increase to R41 530 million by 2015/16.

The following tables give a breakdown of the various operating grants and capital subsidies allocated to the municipality over the medium term:

Table 4 Operating and Capital Grants Receipts

DETAILS

Capital Grants	Source of Funding	2013/2014	2014/2015	2015/2016
MIG - Municipal Infrastructure Grant	COGTA National	16,864,000	14,772,000	15,379,000
Public Works - Fire Services	Public Works	5,000,000		
Total Capital Grants		R 21 864 000	R 14,772,000	R 15,379,000
Operational Grants				
Equitable Share	National Treasury	29,628,000	31,844,000	35,457,000
Councillors Remuneration	National Treasury	1,756,000	2,037,000	2,114,000
FMG	National Treasury	1,650,000	1,800,000	1,950,000
MSIG	COGTA - National	890,000	934,000	967,000
LED	Local Government and Traditional Affairs-Provincial	117,000	112,000	110,000
Expanded Public Works	Public Works	1,000,000		
Environmental Health	Cacadu	816,000		
Library Subsidies	Department of Sports-Provincial	932,000	932,000	932,000
Total Operating Grants		36,789, 000	37,659,000	41,530,000

Tariff-setting is a pivotal and strategic part of the compilation of any budget. When rates, tariffs and other charges were revised, local economic conditions, input costs and the affordability of services were taken into account to ensure the financial sustainability of the Municipality.

The percentage increases of the Eskom electricity tariffs are far beyond the mentioned inflation target. Given that these tariff increases are determined by external agencies, the impact they have on the municipality's electricity tariffs are largely outside the control of the Municipality. Discounting the impact of these price increases in lower consumer tariffs will erode the Municipality's future financial position and viability.

It must also be appreciated that the consumer price index, is not a good measure of the cost increases of goods and services relevant to municipalities. The basket of goods and services utilised for the calculation of the CPI consist of items such as food, petrol and medical services, whereas the cost drivers of a municipality are informed by items such as the cost of remuneration, bulk purchases of electricity, petrol, diesel, chemicals, cement etc. The current challenge facing the Municipality is managing the gap between cost drivers and tariff levied, as any shortfall must be made up by either operational efficiency gains or service level reductions. Within this framework the Municipality has undertaken the tariff setting process relating to service charges as follows:

1.4.1 Property Rates

Property rates cover the cost of the provision of general services. Determining the effective property rate tariff is therefore an integral part of the municipality's budgeting process.

National Treasury's MFMA Circular No. 51 deals, inter alia with the implementation of the Municipal Property Rates Act, with the regulations issued by the Department of Co-operative Governance. These regulations came into effect on 1 July 2009 and prescribe the ratio for the non-residential categories, Public Service Infrastructure and agricultural properties relative to residential properties to be 0,251:1. The implementation of these regulations was done in the previous budget process and the Property Rates Policy of the Municipality has been amended accordingly.

In terms of the Municipal Property Rates Act, property valuations need to be assessed every four years for inclusion in the General Valuation Roll. There have been no major changes to the rates tariffs for 2013/14. The categories of rateable properties for the purpose of levying rates and the proposed rates for 2013/14 is contained in the table below.

Table 5 Comparison of proposed rates to be levied for the 2013/14 financial year

Tariffs are attached as a separate appendix to the report.

1.4.2 Sale of Electricity and Impact of Tariff Increases

Considering the Eskom increases and the current gross profit percentages for the electricity business unit, the consumer tariff is proposed to be increased to result in an overall increase in electricity income of 8 per cent from 1 July 2013. Furthermore, it should be noted that given the magnitude of the tariff increase, it is expected to depress growth in electricity consumption, which will have a negative impact on the municipality's revenue from electricity.

Registered indigents will again be granted 50 kWh per 30 day period free of charge. It should further be noted in a meeting in April 2013 with the delegation from the NERSA the Municipality was advised that a stepped tariff structure needs to be implemented from 1 July 2013. Until the discussions are concluded, the Municipality will maintain the current structure of its electricity tariffs.

The inadequate electricity bulk capacity and the impact on service delivery and development remains a challenge for the Municipality. Owing to high increases in Eskom's bulk tariffs, it is clearly not possible to fund these necessary upgrades through increases in the municipal electricity tariff- as the resultant tariff increases would be unaffordable for consumers.

1.5 Operating Expenditure Framework

The Municipality's expenditure framework for the 2013/14 budget and MTREF is informed by the following:

- Balanced budget constrain (operating expenditure should not exceed operating revenue) unless there are existing uncommitted cash-backed reserves to fund any deficit.
- Funding of the budget over the medium-term as informed by Section 18 and 19 of the MFMA;
- The capital programme is aligned to the assets renewal and backlogs eradication.
- Operational gains and efficiencies will be directed to funding the capital budget and other core services, and
- Strict adherence to the principle of no project plan, no budget. If there is no business plan, no funding allocation can be made

The following table is a high level summary of the 2013/14 budget and MTREF (classified per main type of operating expenditure)

Table 7 Summary of operating expenditure by standard classification item

The budgeted allocation for employee related costs for the 2013/14 financial year totals R36 million, which equals 40 per cent of the total operating expenditure. Circular 66 guidelines have been implemented with regards to the increase in salaries and that has been set at 6.95 per cent for the 2013/14 financial year. The effective increase of salaries is 7 per cent.

The cost associated with the Remuneration of Councillors is determined by the Minister of Cooperative Governance and Traditional Affairs in accordance with the Remuneration of Public Office Bearers Act, 1998 (Act 20 of 1998). The most recent Proclamation in this regard has been taken into account in compiling the municipality's budget.

The provision of debt impairment was determined based on an annual collection rate. While the expenditure is considered to be a non-cash flow item, it informed the total cost associated with rendering the services of the municipality, as well as the municipality's realistically anticipated revenues. Depreciation is widely considered a proxy for the measurement of the rate asset consumption. Budget appropriations in this regard total R 3 964 for the 2013/14 financial year and equates to 4.4 per cent of the total expenditure. Note that the implementation of GRAP 17 Accounting Standard has meant bringing a range of assets previously not included in the assets register onto the register.

Bulk purchases are directly informed by the purchase of electricity from Eskom. The annual price increases have been factored into the budget appropriations and directly inform the revenue provisions. The expenditures include distribution losses.

Our materials comprise of amongst others the purchase of materials for maintenance. In line with the Municipality's repairs and maintenance the expenditure has been prioritised to ensure sustainability of the Municipality's infrastructure.

The following are the main expenditure categories for 2013/14 financial year:

- Employee related costs
- Remuneration of Councillors
- Debt impairment
- Depreciation and Asset Impairment
- Finance Charges
 - Bulk Purchases
 - Other Materials
- Contracted Services
- Transfers and grants
- Other Expenditure.

1.5.1 Priority given to repairs and maintenance

Aligned to the priority being given to preserving and maintaining the Municipality's current infrastructure, the 2013/14 budget and MTREF provide the extensive growth in the area of asset maintenance, as informed by repairs and maintenance of the Municipality. In terms of the Municipal Budget and reporting Regulations, operational repairs and maintenance is not considered a direct expenditure driver but an outcome of certain other expenditures, such as remuneration, purchases of materials and contracted services.

Table 8 Operational repairs and maintenance

	Audit	Audit	Audit	Current Year 2013/14				2013/14 Medium Term Revenue & Expenditure framework

Total Repairs and Maintenance Expenditure	680	2 321	2 896	5 336	6 043	6 043	5 364	5 342	7 041

1.5.2 Free Basic Services: Basic Welfare Package

The welfare package assists households that are poor or face other circumstances that limit their ability to pay for services. To receive these free services that households are required to register in terms of the Municipality's Indigent Policy. The estimates for the 2013/14 for free basic services are seen in table 7 under the heading transfers and grants and are estimated to be R11 million for the 2013/14 financial year. It is made up of the 50kWh free electricity, refuse, sanitation; 6kl free water, grave site as well as rebates on rates.

1.5 Capital Expenditure

Capital expenditure for the next three years is funded by Grants and small portion of Council funding. This is due to significant constraints of Council funds as highlighted in the sections above and the significant impact that the increase in the bulk electricity tariffs had had on the cash flow of the municipality. The Capital Grants to be received are highlighted in the Executive Summary above.

1.6.1 Future Operational cost of new infrastructure

The future operational costs and revenues associated with the Capital Programme have been considered and this expenditure has been factored into two outer years of the operational budget.

1.6 Annual Budget tables

The following pages present the ten budget tables as required in terms of Section 8 of the Municipal Budget and Reporting Regulations (MBRR). These tables set out the municipality's 2013/14 budget and MTREF as approved by the Council. Each table is accompanied by self-explanatory notes.

Explanatory Notes to MBRR Table A1- Budget Summary

1. Table A1 is a budget summary and concise overview of the Municipality's budget from all of the major financial perspectives (operating, capital expenditure, financial position, cash flow, and MFMA funding compliance).
2. The table provides an overview of the amounts approved by Council for operating performance, resources deployed to capital expenditure, financial position, cash and funding compliance, as well as the municipality's commitment to eliminating basic service delivery backlogs.
3. Financial management reforms emphasis the importance of the municipal budget being funded. This requires the simultaneous assessment of the Financial Performance, Financial Position and Cash Flow Budgets, along with the Capital Budget. The Budget Summary provides the key information in this regard:
 - a. The operating surplus/deficit (after Total expenditure) over the MTREF.
 - b. Capital expenditure is balanced by Capital Funding sources, of which
 - i. Transfers recognised are reflected on the Financial Performance Budget.
4. The Cash backing/surplus reconciliation shows that the budget has been funded and that this situation is improving year on year resulting in increased working capital.
5. The section of Free Services shows that the amount spent on Free Basic Services and the revenue cost of free services provided by the municipality continues to increase. In addition, the municipality continues to make progress in addressing service delivery backlogs

**Explanatory notes to MBRR Table A2- Budgeted Financial Performance
(revenue and expenditure by standard)**

1. Table A2 is a view of the budgeted financial performance in relation to revenue and expenditure per standard classification. The modified GFS standard classification divides the municipal services into 15 functional areas. Municipal revenue, operating expenditure and capital expenditure are then classified in terms of each of these functional areas which enables the National Treasury to compile 'whole of government' reports
2. Note the Total Revenue on this table includes capital revenues (Transfers recognised- capital) and balances to the operating revenue shown on Table A4
3. Note that as general principle the revenues for Trading Services should exceed their expenditures. The table highlights that this is the case for Electricity.
4. Other functions that show a deficit between revenue and expenditure are being financed from rates revenues and other revenue sources reflected under the Governance and Administration.

Explanatory notes to Table A3- Budgeted Financial Performance (revenue and expenditure by municipal vote)

1. Table A3 is the view of the budgeted financial performance in relation to the revenue and expenditure per municipal vote. This table facilitates the view of the budgeted operating performance in relation to the organisational structure of the Municipality. This means it is possible to present the operating surplus or deficit of vote.

Explanatory notes to A4- Budgeted Financial Performance (revenue and expenditure)

1. Total revenue is R86 125 million in 2013/14 and escalates to R88 895 million by 2014/15.
2. Revenue to be generated from property rates is R14 396 million in the 2013/14 financial year and increases to R15 259 million by 2015/16 which represents 17 per cent of the operating revenue base of the Municipality and therefore remains a significant funding source for the municipality.
3. Services charges relating to electricity refuse removal and sanitation constitutes the biggest components of revenue basket of the Municipality totalling R21 million for the 2013/14 financial year and increasing to R22163 million by 2015/16.
4. Transfers recognised- operating includes the local government equitable share and other operating grants from National and Provincial Government. It needs to be noted that in real terms the Grants from National Government are growing rapidly over the MTREF.
5. Bulk purchases have significantly increased over the 2009/10 to 2015/16. These increases can be attributed to the substantial increase in the cost of the bulk electricity from Eskom.
6. Employee related costs and bulk purchases are the main cost drivers within the municipality and alternative operational gains and efficiencies will have to be identified to lessen the impact of wage and bulk tariff increases in future years.

Explanatory notes to Table A5- Budgeted Capital Expenditure by vote, standard classification and funding source

1. Table A5 is a breakdown of the capital programme in relation to capital expenditure by municipal vote (multi-year and single-year appropriations); capital expenditure by standard classification; and the funding sources necessary to fund the capital budget, including information on capital transfers from National and Provincial Departments.
2. The MFMA provides that a municipality may approve multi-year or single-year capital budget appropriations. No multiyear appropriations have been budgeted for.
3. Single-year capital expenditure has been appropriated at R21 887, for the 2013/14 financial year and remains relatively constant over the MTREF at levels of R14 844 million and R15 354 million respectively for the two outer years.
4. Unlike multi- year capital appropriations, single-year appropriations relate to expenditure that will be incurred in the specific budget year such as the procurement of vehicles and specialized tools and equipment.
5. The Capital Programme is funded from Capital and Provincial Grants and Transfers. From 2013/14, Capital Transfers totals R21 864 million.

Explanatory notes to Table A6- Budgeted Financial Position

- Table A6 is consistent with International Standards of good financial management practice, and improves understandability for Councillors and management of the impact of the budget on the Statement of Financial Position (Balance Sheet).
- This format of presenting the Statement of Financial Position is aligned to GRAP 1, which is generally aligned to the International version which presents Assets less Liabilities as “accounting” Community Wealth. The order of items within each group illustrates items in order of liquidity; i.e. assets readily converted to cash, or liabilities immediately required to be met from cash, appear first.
- Table 14 is supported by an extensive table of notes (SA3) providing a detailed analysis of the major components of a number of items, including:
 - Call investments deposits;
 - Consumer debtors;
 - Property, Plant and Equipment;
 - Trade and other payables;
 - Provisions non-current;
 - Changes in net assets; and
 - Reserves
- The municipal equivalent of equity is Community Wealth/Equity. The justification is that ownership and the net assets of the municipality belong to the Community.
- Any movement on the Budgeted Financial Performance or the Capital Budget will inevitably impact on the Budgeted Financial Position. As an example, the collection rate assumption will impact on the cash position of the municipality and subsequently inform the level of cash and cash equivalents at year end. Similarly, the collection rate assumption should inform the budget appropriation for debt impairment which in turn would impact on the provision for bad debt. These budget and planning assumptions form a critical link in determining the applicability and relevance of the budget as well as the determination of ratios and financial indicators. In addition the funding compliance assessment is informed directly by forecasting the statement of financial position.

Explanatory notes to Table A7- Budgeted Cash Flow Statement

1. The budgeted cash flow statement is the first measurement in determining if the budget is funded.
2. It shows the expected level of cash inflow versus cash out-flow that is likely to result from the implementation of the budget.

Explanatory notes to Table A8- Cash Backed Reserves/Accumulated Surplus Reconciliation

1. The cash backed reserves/accumulated surplus reconciliation is aligned to the requirements of MFMA Circular 42- Funding a Municipal Budget.
2. In essence the table evaluates the funding levels of the budget by firstly forecasting the cash and investments at year end and secondly reconciling the available funding to the liabilities/commitments that exist.
3. The outcome of this exercise would either be a surplus or deficit. A deficit would indicate of non-compliance with MFMA requirements that the municipality's budget must be 'funded'
4. Non-compliance with Section 18 of the MFMA is assumed because a shortfall would indirectly indicate that the annual budget is not appropriately funded.
5. Considering the requirements of Section 18 of the MFMA, it can be concluded that the proposed 2013/14 MTREF was sufficiently funded owing to the increased reserves.
6. As part of the budgeting and planning guidelines that informed the compilation of the 2013/14 MTREF the end objective of the medium-term framework was to ensure the budget was funded and aligned to section 18 of the MFMA.

PART 2 – SUPPORTING DOCUMENTATION

2.1 Overview of the annual budget process

Section 53 of the MFMA requires the Mayor of the municipality to provide general political guidance in the budget process and setting of priorities that must guide the preparation of the budget. In addition Chapter 2 of the Municipal Budget and Reporting Regulations states that the Mayor of the municipality must establish a Budget Steering Committee to provide technical assistance to the Mayor in discharging the responsibilities set out in Section 53 of the Act.

1.1.1 Budget Process Overview

In terms of Section 21 of the MFMA the Mayor is required to table in Council ten months before the start of the new financial year (i.e. in August 2012) a time schedule that sets out the process to revise the IDP and prepare the budget.

The Mayor conducted the IDP consultations in all the wards.

- 25 January 2013 – Council considered the 2012/13 Mid-year Review
- 27 March 2013 – Tabling in Council of the Draft 2013/IDP and 2013/MTREF for public consultation;.
- 26 April 2013- Closing date for written comments;
- 28 May 2013 – Tabling of the 2013/14 MTREF before Council for consideration and approval.

1.1.2 IDP and Service Delivery and Budget Implementation Plan

The Municipality's IDP is its principal strategic planning instrument, which directly guides and informs its planning, budget, management and development actions. This framework is rolled out into objectives, key performance indicators and targets for implementation which directly inform the Service Delivery and Budget Implementation Plan. The Process Plan applicable to the revision cycle had the following key IDP processes and deliverables:

- Registration of community needs;
- Compilation of departmental business plans including key performance indicators and targets;
- Financial planning and budgeting process;
- Public participation process;
- Compilation of the SDBIP, and
- Review of the performance management and monitoring processes.

The IDP has been taken into business and financial planning process leading up to the 2013/14 MTREF, based on the approved 2012/13 MTREF, Mid-year Review and adjustments budget. The business planning process has subsequently been refined in the light of current economic circumstances and the resulting revenue projections.

With the compilation of the 2013/14 MTREF, each department/function had to review the business planning process, including the setting of priorities and targets

after reviewing the mid-year performance against the 2011/12 Departmental Service Delivery and Budget Implementation Plan. Business planning links back to priority needs and master planning, and essentially informed the detail operating appropriations and three-year capital programme.

1.1.3 Financial Modelling and Key Planning Drivers

As part of the compilation of the 2013/14 extensive financial modelling was undertaken to ensure affordability and long-term financial sustainability. The following key factors and planning strategies have informed the compilation of the 2013/14 MTREF:

- Municipality growth
- Policy priorities and strategic objectives
- Asset maintenance
- Economic climate and trends (i.e. inflation, Eskom increases, household debt, migration patterns)
- Performance trends
- The approved 2012/13 adjustment budget and performance against the SDBIP.
- Cash Flow Management Strategy
- Debtor payment levels
- The need for tariff increases versus the ability of the community to pay for services.
- Improved and sustainable service delivery

In addition to the above, the strategic guidance given in National Treasury's MFMA Circular 58, 59, 66 and 67 has been taken into consideration in planning and prioritisation process.

1.1. Community Consultation

The draft 2013/14 MTREF was tabled before Council on the 27th of March 2013. Thereafter, the draft budget was made available on the municipal website, municipal offices and libraries in order to invite the public to submit their comments on the proposed budget. Community meetings were held to obtain comments from the public.

1.2 Overview of alignment of annual budget with IDP

The Constitution mandates local government with the responsibility to exercise local developmental and cooperative governance. The eradication of imbalances in South African society can only be realized through a credible integrated developmental planning process.

Municipalities in South Africa need to utilise integrated development planning as a method to plan future development in their areas and so find the best solutions to achieve sound long term development goals. A municipal IDP provides a five year strategic programme of action aimed at setting short, medium and long term strategic and budget priorities to create a development platform, which correlates

with the term of the political incumbents. The plan aligns the resources and the resources and the Municipality to its overall development aims and guides the municipal budget. An IDP is therefore a key instrument which municipalities use to provide Vision, leadership and direction to all those that have a role to play in the development of a municipal area. The IDP enables municipalities to make the best use of scarce resources and speed up service delivery.

Integrated developmental planning in the South African context is amongst others, an approach to planning aimed at involving the municipality and the community to jointly find the best solutions towards sustainable development. Furthermore, integrated development planning provides a strategic environment for managing and guiding all planning, development and decision making in the municipality.

It is important that the IDP developed by municipalities correlate with National and Provincial intent. It must aim at to co-ordinate the work of local and other spheres of government in a coherent plan to improve the quality of life for all the people living in that area. Applied to the Municipality, issues of National and Provincial importance should be reflected in the IDP of the Municipality. A clear understanding of such intent is therefore imperative to ensure that the Municipality strategically complies with the key national and provincial priorities.

The aim of revision cycle was to develop and coordinate a coherent plan to improve the quality of life for all the people living in the area, also reflecting issues of National and Provincial importance. One of the key objectives is therefore to ensure that there exists alignment between National and Provincial priorities, policies and strategies and the Municipality's response to these requirements.

The National and Provincial priorities, policies and strategies of importance include inter alia

- Green Paper on National Strategic Planning of 2009
- Government Programme of Action
- Development Facilitation Act of 1995
- Provincial Growth and Development Strategy (PGDS)
- National and Provincial Spatial Development Perspectives
- Relevant Sector plans such as transportation, legislation and policy.
- National Key Performance Indicators
- Accelerated and Shared Growth Initiative (ASGISA)
- National 2014 Vision
- National Development Perspective (NSDP) and
- The National Priority Outcomes.

The Constitution requires local government to relate its management, budgeting and planning functions to its objectives. This gives a clear indication of the intended purposes of municipal integrated development planning. Legislation stipulates clearly that a municipality must not only give effect to its IDP, but also conduct its affairs in a manner which is consistent with its IDP.

Table 19 IDP Strategic Objectives

In order to ensure integrated and focused service delivery between all spheres of government it was important for the Municipality to align its budget priorities with that of National and Provincial government. All sphere of government place high priority on infrastructure development, economic development and job creation, efficient service delivery, poverty alleviation and building sound institutional arrangements.

In line with the MSA, the IDP constitutes a single, inclusive strategic plan for the Municipality. The five-year programme responds to the development challenges and opportunities faced by the Municipality by identifying the key performance area to achieve the strategic objectives.

The 2013/14 MTREF has therefore been directly informed by the IDP revision process

1.3 Measurable performance objectives and Indicators

Performance Management is a system intended to manage and monitor service delivery progress against the identified strategic objectives and priorities. In accordance with legislative requirements and good business practices as informed by the National Framework for Managing Programme Performance Information, the Municipality has developed and implemented a performance management system of which is constantly refined as the integrated planning process unfolds. The Municipality targets, monitors, assesses and reviews organisational performance which in turn is directly linked to individual employee's performance.

At any given time within government, information from multiple years is being considered; plans and budgets for next year; implementation for the current year; and reporting on last year's performance. Although performance information is reported publicly during the last stage, the performance information process begins when policies are being developed, continues through each of the planning, budgeting, implementation and reporting stages. The planning, budgeting and reporting cycle can be graphically illustrated as follows:

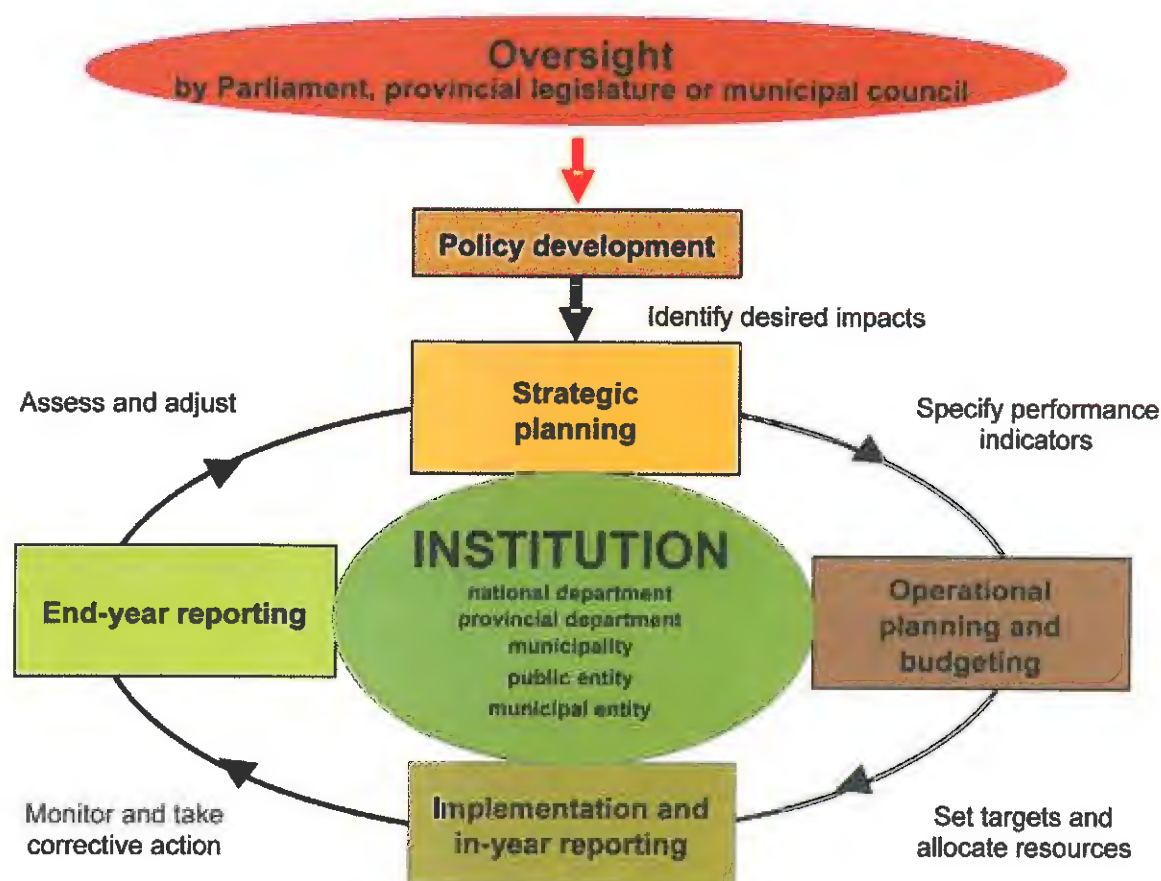

Figure: Planning, budgeting and reporting

The performance of the Municipality relates directly to the extent to which it has achieved success in realising its goals and objectives, complied with legislative requirements and meeting stakeholder expectations. The Municipality therefore has adopted one integrated performance management system which encompasses:

- Planning (setting goals, objectives, targets and benchmarks)
- Monitoring (regular monitoring and checking on the progress against plan)
- Measurement (indicators of success)
- Review (identifying areas requiring change and improvement)
- Reporting (what information, to whom, from whom, how often and for what purpose); and
- Improvement (making changes where necessary).

The performance information concepts used by the Municipality in its integrated performance management system are aligned to the **Framework of Managing Programme Performance Information** issued by the National Treasury.

1.4 Overview of budget related- policies

The Municipality's budgeting process is guided and governed by relevant legislation, frameworks, strategies and related policies.

1.4.1 Review of credit control and debt collection procedures/policies

The Credit Control and Debt Collection Policy as approved by Council has been reviewed. While adopted policy is credible, sustainable, manageable and informed by affordability and value for money there has been a need to review certain components to achieve a higher collection rate. In addition emphasis will be placed on speeding up the indigent registration process to ensure that credit control and debt collection efforts are not fruitlessly wasted on these debtors.

The 2013/14 MTREF has been prepared on the basis of achieving an average debtors' collection rate of 90 per cent on current billings. In addition the collection of debt in excess of 90 days has been prioritised as a pertinent strategy in increasing the Municipality's cash levels.

1.4.2 Review of Property Rates Policy and Bylaws

The Property Rates Policy as approved by Council has been reviewed. While the adopted policy is credible, sustainable, manageable and informed by affordability and value for money there has been a need to review to certain components like the rating of farm land to achieve a higher collection rate. By-laws have been formulated and are to be promulgated in the Provincial Government as required by Section 14 of the Property Rates Act , 2004 (Act 6 of 2004). Public hearings for the bylaws were held in all the wards.

1.5 Overview of budget assumptions

1.5.1 External factors

Owing to the economic slowdown, financial resources are limited due to reduced payment levels by consumers. This has resulted in declining cash inflows, which has necessitated restrained expenditure to ensure that cash outflows remain within the affordability parameters of the Municipality's finances.

1.5.2 General Inflation outlook and its impact on the municipal activities

There are five key factors that have been taken into consideration in the compilation of the 2013/14 MTERF:

- National Government macro economic targets;
- The general inflationary outlook and the impact on Municipality's residents and businesses.
- The impact of municipal cost drivers;
- The increase in prices for bulk electricity; and
- The increase in the cost of remuneration.

1.5.3 Collection rate for revenue services

The base assumption is that tariff and rating increases will increase at a rate slightly higher than CPI over a long term. It is assumed that current economic conditions, and relatively controlled inflationary conditions, will continue for the forecasted term.

The rate of revenue collection is still low. The performance of arrear collections will however only be considered a source of additional cash in-flow once the performance has been carefully monitored.

1.5.4 Growth or decline in tax base of the municipality

Debtors' revenue is assumed to increase at a rate that is influenced by the consumer debtors' collection rate, tariff/rate pricing, real growth rate of the Municipality, household formation growth rate and the poor household charge rate.

Household formation is the key factor in measuring municipal revenue and expenditure growth, as servicing 'households' is greater municipal service factor than servicing individuals. Household formation rates are assumed to household dwellings. In addition the change in the number of poor households influence the net revenue benefit derived from household formation growth, as it assumes that the same costs incurred for servicing the household exist, but that no consumer revenue is derived as the 'poor household' limits consumption to the level of free basic services.

1.5.5 Salary increases

Salary increase were budgeted at 7%

1.5.6 Impact of national, provincial and local policies

Integration of service delivery between national, provincial and local government is critical to ensure focussed service delivery and in this regard various measures were implemented to align IDPs, Provincial and National strategies around priority spatial interventions. In this regard, the following national priorities form the basis of all integration initiatives:

- Creating Jobs
- Enhancing education and skill development
- Improving Health services;
- Rural development and agriculture; and
- Fighting crime and corruption

To achieve these priorities integration mechanisms are in place to ensure integrated planning and execution of various development programs. The focus will be to strengthen the link between policy priorities and expenditure thereby ensuring the achievement of National, Provincial and local objectives.

1.5.7 Ability of the municipality to spend and deliver on the programmes

It is estimated that a spending rate of at least 97 per cent is achieved on Operating expenditure and 98 per cent on the Capital Programme for the 2013/14 of which performance has been factored into the cash flow budget.

1.6 Overview of budget funding

1.6.1 Medium-term outlook: operating revenue

The following table is a breakdown of the operating revenue over the medium-term:

Table 248 Breakdown of operating revenue over the medium-term

DESCRIPTION	2013/14 Medium Term Revenue and Expenditure Framework		
R thousands	Budget year 2013/14	Budget year +1 2014/15	Budget year +2 2015/16
Revenue by source			
Property rates	14 396	15 259	16 175
Property – penalties & collection charges			
Service charges – electricity revenue	2 038	2 160	2 290
Service charge – refuse revenue	3 452	3 659	3 878
Rental of facilities and equipment	108	114	121
Interest earned external investment	705	747	792
Interest earned – Outstanding debtors	500	530	562
Sewerage and Water Tariffs	15 418	16 343	17 324
Fines	4 000	4 240	4 494
Licences and permits	161	170	181
Transfer recognised – Operational	36 789	37 659	41 530
Other revenue	8 558	8 012	8 493
Total Revenue (excluding capital transfers and contribution)	86 125	88 893	95 840

Tariff setting plays a major role in ensuring desired levels of revenue. Getting tariffs right assists in the compilation of a credible and funded budget. The Municipality derives most of its Operational Revenue from the provision of goods and services such as property rates, electricity, sanitation as well as refuse, operating and capital grants from organs of state and other minor charges (such as building plans, licences and permits etc)

The revenue strategy is a function of key components such as:

- Growth in the Municipality and Development;
- Revenue management and enhancement;
- Achievement of 95 per cent annual collection rate for consumer revenue;
- National treasure guideline;
- Electricity tariff increase within the national electricity regulator of the South Africa (NERSA)N approval;
- Achievement of the full cost recovery of specific users charges;
- Determining tariff escalating rate by establishing/ calculating requirement;
- The property Rates Policy in term of the Municipality property Rates Act 2004 (Act,2004) (MPRA), and
- And the Ability to extend new services and obtain cost recovery level

Description	Percentage
Electricity	8 %
Sanitation	6%
Others	6%

1.6.2 Cash Flow Management

Cash flow management and forecasting is a critical step if determining if the budget is funded over the medium term> the Table below is consisting with international standards of good financial management practise and also improve understandably for councillors and management some specific features include:

- Clear separation of Receipts and Payment within cash flow
- Clear separation of capital and operating receipts from government, which is also enables cash from ratepayers and other to be provided for as cash inflow based on actual performance in other words the actual collection rate of billed revenue..
- Separation of borrowing and loan repayments (no set-off), to assist with MFMA compliance assessment regarding the use of long term borrowing (debt).

Table 26 MBRR Table A7 – Budget cash flow statement

1.6.3 Cash Backed Reserves/Accumulated Surplus Reconciliation

This following table meets the requirements of MFMA Circular 42 which deals with the funding of a municipal budget in accordance with Sections 18 and 19 of the MFMA. The table seeks to answer three key questions regarding the use and availability of cash:

- What are the predicted cash and investments that are available at the end of the budget year?
- How are those funds used?
- What is the net funds available or funding shortfall?

A surplus would indicate the cash-backed accumulated surplus that was/is available. A shortfall (applications > cash and investments) is indicative of non-compliance with Section 18 of the MFMA requirement that the municipality's budget must be 'funded'. It is also important to analyse trends to understand the consequences e.g. the budget year might indicate a small surplus situation, which in itself is an appropriate outcome, but if in prior years there were much larger surpluses then this negative trend may be a concern that requires closer examination.

Table 27 MBRR Table A8-Cash backed reserves/accumulated surplus reconciliation

References

1. Must reconcile with Budgeted Cash Flows
2. For example: VAT, taxation
3. Council approval for policy required - include sufficient working capital (e.g. allowing for a % of current debtors > 90 days as uncollectable)
4. For example: sinking fund requirements for borrowing
5. Council approval required for each reserve created and basis of cash backing of reserves

1.6.4 Funding Compliance measurement

National Treasury requires that the municipality assesses its financial sustainability against fourteen different measures that look at various aspects of the financial health of that municipality. These measures are contained in the following table. All the information comes directly from the annual budgeted statements of finance performance, financial position and cash flows. The funding compliance measurement table essentially measures the degree to which the proposed budget complies with the funding requirements of the MFMA. Each of the measures is discussed below

Table 28 MBRR Table SA10 – Funding compliance measurement

MTREF Funded ✓ / Unfunded ✗			15	✓	✗	✓	✗	✗	✗	✗	✗	✗

1.6.4.1 Cash/cash equivalent position

The Municipality's forecast cash position was discussed as part of the budgeted cash flow statement. A 'positive' cash position, for each year of the MTREF would generally be a minimum requirement, subject to the planned application of these funds such as cash-backing of reserves and working capital requirements.

If the municipality's forecast cash position is negative, for any year of the medium term budget, the budget is very unlikely to meet MFMA requirements or be sustainable and could indicate a risk of non-compliance with Section 45 of the MFMA which deals with the repayment of short term debt at the end of the financial year.

1.6.4.2 Cash plus investments less application of funds

The purpose of this measure is to understand how the municipality has applied the available cash and investments as identified in the budgeted cash flow statement. The detail reconciliation of the cash back reserves/surplus is contained in Table 16. The reconciliation is intended to be a relatively simple methodology for understanding the budgeted amount of cash and investments available with any planned or required applications to be made. This has been exclusively discussed above.

1.6.4.3 Monthly average payments covered by cash or cash equivalents

The purpose of this measure is to understand the level of financial risk should the municipality be under stress from a collection and cash-flow perspective. Regardless of the annual cash position an evaluation should be made of the ability of the Municipality to meet monthly payments as and when they fall due. It is especially important to consider the position should the municipality be faced with an unexpected disaster that threatens revenue collection such as rate boycotts.

1.6.4.4 Surplus/deficit excluding depreciation offsets

The main purpose of this measure is to understand if the revenue levels are sufficient to conclude that the community is making a sufficient contribution for the municipal resources consumed each year. An 'adjusted' surplus/deficit is achieved by offsetting the amount of depreciation related to externally funded assets. Municipalities need to assess the result of this calculation taking into consideration its own circumstances and levels of backlogs. If the outcome is a deficit, it may indicate that rates and service charges are insufficient to ensure that the community is making a sufficient contribution toward the economic benefits they are consuming over the medium term.

It needs to be noted that a surplus does not necessarily mean that the budget is funded from a cash flow perspective and the first two measures in the table are therefore critical.

1.6.4.5 Property Rates/service charge revenue as a percentage increase less macro inflation target

The purpose of this measure is to understand whether the municipality is contributing appropriately to the achievement of national inflation targets. This measure is based on the increase in 'revenue', which will include both the change in the tariff as well as any assumption about real growth such as new property development, services consumption growth etc.

1.6.4.6 Cash receipts as a percentage of ratepayer and other revenue

This factor is a macro measure of the rate at which funds are 'collected'. This measure is intended to analyse the underlying assumed collection rate for the MTREF to determine the relevance and credibility of the budget assumptions contained in the budget.

1.6.4.7 Debt impairment expense as percentage of billable

This factor measures whether the provision for debt impairment is being adequately funded and is based on the underlying assumption that the provision for debt impairment (doubtful and bad debts) has to be increased to offset under-collection of billed revenue).

1.6.4.8 Capital payments percentage of capital expenditure

The purpose of this measure is to determine whether the timing of payments has been taken into consideration when forecasting the cash position.

1.6.4.9 Borrowing as a percentage of capital expenditure (excluding transfers, grants and contributions)

The purpose of this measure is to determine the proportion of a municipality's 'own-funded' capital expenditure budget that is being funded from borrowed funds to confirm MFMA compliance.

1.6.4.10 Transfers/grants revenue as a percentage of Government transfers/grants available

The purpose of this measurement is mainly to ensure that all available transfers from National and Provincial Government have been budgeted for. A percentage less than 100 per cent could indicate that not all grants as contained in the Division of Revenue Act (DoRA) have been budgeted for. The Municipality has budgeted for all transfers.

1.6.4.11 Consumer debtors change(Current and Non-current)

The purposes of these measures are to ascertain whether budgeted reductions in outstanding debtors are realistic. There are 2 measures shown for this factor; the change in current debtors and the change in long term receivables, both from the Budgeted Financial Position.

1.6.4.12 Repairs and maintenance expenditure level

This measure must be considered important within the context of the funding measures criteria because a trend that indicates insufficient funds are being committed to asset repair could also indicate that the overall budget is not credible and/or sustainable in the medium to long term because the revenue budget is not being protected.

1.6.4.13 Asset renewal/rehabilitation expenditure level

This measure has a similar objective to aforementioned objective relating to repairs and maintenance. A requirement of the detailed capital budget (since MFMA Circular 28 which was issued in December 2005) is to categorise each capital project as a new asset or a renewal/rehabilitation project. The objective is to summarise and understand the proportion of budgets being provided for new assets and also asset sustainability. A declining or low level of renewal funding may indicate that a budget is not credible and/or sustainable and future revenue is not being protected, similar to the justification for 'repairs and maintenance' budgets.

1.7 Expenditure on grants and reconciliation of unspent funds

2.10 Annual budgets and SDBPs

The service delivery and budget implementation plans have been drafted and are aligned to the IDP, Performance Agreements and Budget. This will be finalized by June 2013.

2.11 Contracts having future budgetary implications

There are no contracts having future budgetary implications,

2.1.2 Legislative compliance status

Compliance with the MFMA implementation requirements have been substantially adhered to through the following activities:

1. in year reporting

Reporting to National Treasury in electronic format was fully complied with on a monthly basis; Section 71 reporting has progressively improved.

2. Internship programme

The Municipality is participating in the Municipal Financial Management Internship Programme and has employed five interns undergoing training in various divisions of the BTO and also CMPD.

3. Budget and Treasury Office

The Budget and Treasury office has been established in accordance with the MFMA.

4. Audit Committee

An Audit Committee has been established and is fully functional.

5. Service Delivery and Budget Implementation Plan

The detailed SDBIP document will be drafted and will be aligned and be informed by the 2013/14 MTREF.

6. Annual Report

Annual report is compiled in terms of the MFMA and National Treasury requirements.

7. Policies

An amendment of the Municipal Property Rates Regulations as published in Government Notice 363 of 27 March 2009 was announced in Government Gazette 33016 on 12 March 2010. The ratios as prescribed in the Regulations have been complied with.

DRAFT REVIEW OF INTEGRATED DEVELOPMENT PLAN 2013/14 FINANCIAL YEAR

Extract on summary of project profile

3.3 SUMMARY OF PROJECT PROFILE

Project name	Activity	Outcome	Ward	Area	Responsible directorate	Cost	Source of funding
Electrification	Electrification of housing	Completion of electrification of housing project	1	Misgund	Technical and Infrastructure	Completed	Department of Human Settlement
Water	Expansion and Fencing of the Dam and Reservoir	Maintenance and Storage Capacity	1	Misgund	Technical and Infrastructure	R100 000	Department of Water
Cemetery	Fencing	Improve maintenance	1	Misgund	Community Services	R150 000	DLGTA
Health facilities	Facilitate the building of new clinic	Improved health profile of the community	1	Misgund	Community Services	R2.5m	Department of Health
High mast lights	Re-commissioning high mast lights	Completion of project	1	Misgund	Technical and Infrastructure	R250 000	Department of Human Settlement
Dumping site	Establishment of dumping site	Improved waste management	1	Misgund	Community Services	R100 000	KKM and CDM
Multi-purpose centre	Building of multi-purpose centre	Completion of building of multi-purpose centre	1	Misgund	Technical and Infrastructure	R5m	MIG
Sport field	Building of new sport field with Ablution, Grand stand and Fencing	Completion of project	1	Misgund	Community Service/Technical and Infrastructure	R2.5m	MIG
Sewer Upgrading	Upgrading of Sewer	Improve sewer system	1	Misgund	Technical and Infrastructure	R4.5m	MIG

Plastic factory	Manufacturing refuse bags and other plastic accessories	Supply municipality and other businesses with refuse bags	1	Louterwater	Strategic services	R1m	Department of Economic Development, Environmental Affairs and Tourism
Library Services	Expansion of Library	Improve quality educational support	1	Louterwater	Community Services	R300 000	DSRAC and CDM
Health facilities	Facilitate the building of new clinic	Improved health profile of the community	1	Louterwater	Community Services	R2.5m	Department of Health
Play Park Services	Upgrade play park	Provide recreational services	1	Louterwater	Community Services	R70 000	KKM and CDM
Cemetery	Fencing	Improve maintenance	1	Louterwater	Community Services	R50 000	KKM and CDM
Water	Expansion and Fencing of the Dam and Reservoir	Maintenance and Storage Capacity	1	Louterwater	Technical and Infrastructure	R1.5m	KKM and MIG
Educational Facilities	Facilitate building of high school	Improve educational profile of the community	1	Louterwater	Community Services	R90m	Department of Education
Roads	Upgrading of roads	Improve roads	1	Louterwater	Technical and Infrastructure	R4.4m	MIG, KKM, CDM and Department of Transport
Sport field	Expansion, Fencing and building ablution	Completion of project	1	Louterwater	Community Services/Technical and Infrastructure	R2.5m	MIG
Roads	Upgrading of roads	Improve roads	2	Krakeelrivier	Technical and Infrastructure	R2m	MIG
High mast lights	Re-commissioning high mast lights	Completion of project	2	Krakeelrivier	Technical and Infrastructure	R250 000	MIG and KKM

Library facilities	Conversion of a building for library facilities	Completion of the project	2	Krakeelrivier	Community services/ Technical and Infrastructure	R300 000	Department of Public Works
Recreational facilities	Building of play parks	Completion of the project	2	Krakeelrivier	Community services/ Technical and Infrastructure	R150 000	CDM and MIG
Cemetery	Fencing	Improve maintenance	2	Krakeelrivier	Community Services	R50 000	KKM and CDM
Recreational facilities	Building of bus shelter	Completion of the project	2	Krakeelrivier	Community services/ Technical and Infrastructure	R200 000	CDM and KKM
Roads upgrade	Upgrading of roads	Upgraded roads	2	Coldstream	Technical and Infrastructure	R5,9m	MIG
Housing	New housing	Building of 60 houses	2	Coldstream	Technical and Infrastructure	R4,4m	Department of Human Settlement
Multi-purpose centre	Building of multi-purpose centre	Completion of building of multi-purpose centre	2	Coldstream	Technical and Infrastructure	R5m	MIG
Club house and ablution block	Upgrading of club house and improving the ablution block	Completion of the project	2	Coldstream	Technical and Infrastructure	R150 000	MIG / Koukamma
Library facilities	Conversion of a building for library facilities	Completion of the project	2	Coldstream	Community services/ Technical and Infrastructure	R180 000	DSRAC
Recreational facilities	Building of play parks	Completion of the project	2	Coldstream	Community services/ Technical and Infrastructure	R70 000	Koukamma Municipality
Cemetery	Fencing	Improve maintenance	2	Joubertina	Community Services	R50 000	KKM and CDM
Rock arts	Building rock art centre	Completion of the project	2	Joubertina	Strategic services	R1,9m	Department of Tourism

Recreational facilities	Building of shelters for venders	Completion of the project	2	Joubertina	Community services/ Technical and Infrastructure	R100 000	CDM
Recreational facilities	Building of play parks	Completion of the project	3	Ravinia	Community services/ Technical and Infrastructure	R150 000	CDM
Dumping site	Establishment of dumping site	Improved waste management	3	Ravinia	Community Services	R250 000	CDM and KKM
Water	Water meters to be installed	Completion of project	3	Ravinia	Technical and Infrastructure	R800 000	Depart of Water Affairs, CDM
Housing	Rectification of housing	Completion of the project	3	Ravinia	Technical and Infrastructure	R11m	MIG
Cemetery	Fencing & Expanding	Improve maintenance	3	Ravinia	Community Services	R70 000	CDM and KKM
Roads	Upgrading of roads	Improve roads	3	Twee Riviere	Technical and Infrastructure	R4m	Department of Roads and Transport
Water	Expansion and Fencing of the Dam and Reservoir	Maintenance and Storage Capacity	3	Twee Riviere	Technical and Infrastructure	R600 000	Department of Water Affairs, CDM
Recreational facilities	Old Clinic to be upgraded to Orphanage	Completion of the project	3	Twee Riviere	Community services/ Technical and Infrastructure	R900 000	Public Works
Honey bush tea	Renovation of the building for purposes of establishing a nursery	Planting of honey bush tea in the nursery	3	Twee Riviere	Strategic services	R2,3m	Goega Development Corporation
Sport field	Fencing and building ablution	Completion of project	3	Ravinia	Community Services/Technical and Infrastructure	R2.5m	Department of Sports and Recreation
High mast lights	Re-commissioning high mast lights	Completion of project	3	Ravinia	Technical and Infrastructure	R250 000	CDM, MIG
Small town regeneration	Town beautification	Town beautification	3	Ravinia	Community Services/Technical and Infrastructure	R2m	Department of Public Works

Multi-purpose centre	Building of multi-purpose centre	Completion of building of multi-purpose centre	3	Ravinia	Technical and Infrastructure	R5m	MIG
Roads	Upgrading of roads	Improve roads	3	Ravinia	Technical and Infrastructure	R14m	Department of Roads, CDM, MIG
Paving factory	Establishing a paving factory	Assisting municipality on paving the gravel road	4	Kareedouw	Strategic services	R1.5m	Department of Economic Development and Environmental Affairs
Ostrich breeding	Growing of ostrich chickens and selling them to Klein Karoo International	Job creation	4	Kareedouw	Strategic services	R1.5m	Klein Karoo International
High mast lights	Re-commissioning high mast lights	Completion of project	4	New Rest & Uitkyk	Technical and Infrastructure	R250 000	MIG and CDM
Housing	New housing	Building of houses	4	Assegaaibosch	Technical and Infrastructure	R2.2m	Department of Human Settlement
Water	Expansion and Fencing of the Dam and Reservoir	Maintenance and Storage Capacity	4	Mountain View	Technical and Infrastructure	R600 000	MIG
Grazing Land	Land to be made available for stray animals	Availability of land	4	Kareedouw	Community Services	Estimated at R100 000	KKM
Library	Building of a new library	Provision of library services	4	Kareedouw	Community Services	R10m	DSRAC
Small town regeneration	Town beautification	Town beautification	4	Kareedouw	Community Services/Technical and Infrastructure	R2m	Department of Economic Development and Environmental Affairs
Waterborne and water purification	Installation of water bond system and purification	Improved sewerage and purification system	5	Clarkson	Technical and Infrastructure	R1.5m	MIG
Housing	400 New housing	Building of houses	5	Clarkson	Technical and Infrastructure	R29m	Department of Human Settlement

Water	Installation of water meters	Completion of project	5	Clarkson	Technical and Infrastructure	R500 000	MIG
Grazing Land	Land to be made available for stray animals	Availability of Land	5	Clarkson	Community Services	Estimated at R100 000	KKM
